PROFILE

Game Design & Development student with a background as an IT specialist for systems integration. I like the technical side of games most: gameplay systems, tools and clean pipelines from Blender into the engine. Alongside my studies I work as a working student in enterprise architecture management.

EXPERIENCE

04/2026 - now
Working Student, Enterprise Architecture Management · CONET
Supporting client projects in enterprise architecture management (under NDA).

01/2026 - 03/2026
IT Support Specialist · Yncoris GmbH & Co. KG
- 1st and 2nd level support, incident intake and tracking in the ticket system
- Managing end devices in the network and deploying software
- Planning and running hardware rollouts, driving hardware standardisation

08/2023 - 01/2026
Apprenticeship, IT Specialist for Systems Integration · Yncoris GmbH & Co. KG
1st level support, M365 administration, datacenter, networking, Big Data & IoT, licence and contract management.

04/2025 - 05/2025
Internship abroad · Playsystems Integrator PTC, Crete

EDUCATION

04/2026 - now
B.A. Game Design & Development · Macromedia University of Applied Sciences, Cologne
Summer semester 2026, certificate courses (25 ECTS, average grade 1.1):

3D Game Art	1.0 (100/100)
Game Storytelling	1.0
Game Analysis	1.0
Game Design 2	1.0
Game Engines & Scripting	1.7

08/2015 - 06/2023
Abitur (university entrance qualification) · Abtei-Gymnasium Brauweiler

SELECTED PROJECTS

ONE MORE SPIN `Godot 4 · GDScript · team of 2`
Roulette roguelike built in 6 days for a game jam, now in post-jam development. Core game loop, bet system, UI animation and settings.

Campus Balance Run `HTML5 · JavaScript · team of 5`
Endless runner for Ashoka and the Campus Wellbeing Project, used at campuses worldwide. I wrote all of the game code, optimised for weak phones and slow connections.

Minecraft Fabric mods `Java · Fabric API · solo`
Two published client-side mods (Challenge Timer, All Items) with 570+ downloads on Modrinth in their first weeks.

Camping Diorama `Blender · Substance Painter · UE5 · solo`
Stylized 3D scene from modelling and wind rigs to texturing and rendering. Graded 1.0 with 100 of 100 points.
